

Rising 3rd Grade Summer Math Log

2025-2026

Name _____

Directions: The goal for the summer is for all students to enter third grade being able to QUICKLY recall ALL basic facts. We're looking for automatic recall of these facts. Having these facts memorized makes learning more difficult concepts in math SO MUCH easier! Your child will feel more confident in math simply by putting the time in to make sure he/she can quickly recall all basic facts. Knowing addition, subtraction, and multiplication facts by heart is ideal. Memorizing the division facts is an extra bonus! 😊

We cannot stress enough how important it is for your child to be able to QUICKLY recall ALL basic facts!

The following are possible fun ways for your child to practice learning these facts:

1. **Flashcards** (Addition, Subtraction, and Multiplication)
2. **Dice Roll** - Multiply (or add) 2 dice together
3. **Game of Yahtzee**
4. **Card Games** (Make your child keep score)
5. **Board Games** (Board games that require logical/strategic thinking & planning are great ways to build critical thinking and reasoning skills. Plus, it's fun to play together!)
6. **Xtra Math & IXL** (Excellent self-paced online practice)
7. **iPad Apps** (Check out the App Store for great suggestions!)
8. **Math Websites** (Google "Math Websites for Kids" or "Math Games for Kids")

My child has mastered the following basic facts:

___Addition ___Subtraction ___Multiplication ___Division

Parent Signature _____

*Please return this form to your child's teacher on the first day of school for a special treat. 🙌👏

Have Fun!!
